Ready to Deploy, White-Labelled, Configurable Digital Banking Stack

Phase - 1	
Modules & Features	
Digital Onboarding & Digital Banking Stack	● Mobile & Web applications ○ Digital Onboarding ○ Accounts ○ Payments ○ Cards ○ Transactions ○ Profile
Duration	3-4 months
Scope Modules	Interface - Web and Mobile application Major modules include Digital onboarding forms, Accounts, Transitions and Profile settings. ● Digital Onboarding. ○ Account Opening Form ○ KYB / KYC workflows (multi-entity, UBO, directors) ○ Document upload & validation ■ Secure document upload ■ OCR / ID extraction engine (Third-Party) ■ Secure document storage ■ Manual document review ○ Compliance & risk checks ■ eKYC & AML checks (Sumsb or Onfido) ■ Sanctions and PEP screening (Third Party) ■ Digital declarations and consent capture

- Timestamped consent logs
- RM-assisted onboarding & workflows
- Digital declarations & consent
 - Timestamped consent logs
- e-Signature
- Status tracking & notifications
 - Application status tracking
 - Email notifications (status updates, document requests, alerts)
 - SMS notifications (OTP, progress updates)
 - Internal alerts to Compliance and Operations teams
- Secure Login and Authentication
 - Core Authentication
 - Email / Mobile + Password login
 - OTP-based login (SMS / Email)
 - SSO support (SAML / OAuth for enterprise clients)
 - Multi-device login support
 - Two-Factor Authentication (2FA / MFA)
 - OTP via SMS / Email
 - Authenticator apps (Google Authenticator, Microsoft Authenticator)
 - Push-based authentication
 - Password & Credential Management
 - Change / Reset password (secure flow with OTP/email verification)
 - Password policy enforcement (length, complexity, expiry)
 - Password history & reuse prevention
 - Account lockout after failed attempts

- Session & Device Management
 - Secure session handling (JWT / token-based)
 - Session timeout & auto logout
 - Concurrent session control (limit / restrict multiple logins)
 - Device binding/trusted devices
 - Logout from all devices
- Login Audit & Monitoring
 - Login history (time, device, IP, location)
 - Failed login attempt tracking
 - Admin / RM visibility via back-office
- Security & Risk Controls
 - IP whitelisting/blacklisting
 - Geo-restrictions (country-based access control)
 - Velocity checks (multiple attempts, rapid actions)
- Dashboard
 - Consolidated account overview (balances across all accounts)
 - Last 10 / recent transactions snapshot
 - Cash flow summary (inflow vs outflow)
 - Quick actions (pay, transfer, issue card, create invoice)
 - Multi-entity / multi-account visibility
- Account Management
 - Create & manage accounts (multi-currency supported)
 - Virtual accounts / sub-accounts (for segregation: clients, departments, use-cases)
 - IBAN / account number allocation
- Balance & Transactions
 - Real-time balance view (available / ledger balance)
 - Last 10 / recent transactions view

- Detailed transaction history with filters (date, amount, type)
- Download statements (PDF / CSV)
- Transaction categorisation & tagging
- Search & drill-down (reference, counterparty, notes)
- Fund Transfers
 - Single & bulk transfers (WPS, payroll, vendor payouts)
 - Domestic & International Transfers
 - Maker-checker / multi-level approvals
 - Scheduled & recurring payments
 - Real-time status tracking & notifications
- Beneficiaries Management
 - Add / edit / delete local & international beneficiaries
 - IBAN validation (UAE format) - Third Party
 - Beneficiary approval workflows
 - Categorisation (employees, vendors, partners)
 - Secure changes with OTP / MFA
 - Cooling period/risk controls for new beneficiaries
- Statements
 - Detailed Statement
 - Search and Filters
 - Export file formats - .PDF, XLS, CSV
- Cards
 - View cards (virtual & physical)
 - Manage Card - Lock and Block/Unblock
 - PIN set / change management
 - Card Limit Management (Optional)
 - ATM Withdrawal
 - Online
 - Channel Controls (ATM, POS, online, international)
 - Request for a physical Card

- Replacement of the card
- Utility Bill Payments
 - Add/Manage Billers
 - Upcoming bills and Reminders
 - Manage Transactions (Past Payments)
- WPS
 - WPS registration & configuration
 - Employee management (add individual/bulk upload)
 - SIF file generation & validation
 - Salary file processing
 - Disbursement, tracking & reporting.
- In-App Customer Support
 - In-app customer support (web & mobile)
 - Create new support requests/tickets
 - Track request status & history
- Profile Settings
 - Manage Profile (View & Update)
 - Address - Registered
 - Email & Phone number
 - Set Login ID. (Optional)
 - Manage Users
 - Manage Approval Workflow
 - Change Password (Optional)
 - Security
 - Audit log/Activity
- Notifications
- Back Office Portal
 - User/Client Management
 - Customer 360 view (profile, accounts, activity)
 - KYC / KYB review & approval workflows
 - Onboarding status tracking & interventions

- User lifecycle management (activate, suspend, close)
- Document management & verification
- Risk flags & compliance notes
- Transaction Management
 - Monitor all transactions (local, WPS, international)
 - Transaction search, filters & drill-down
 - Reconciliation support & status tracking
- Support Management
 - Ticket/case management system
 - Assign to RM/support teams
 - SLA tracking & escalation workflows
- Team & Roles Management
 - Create & manage internal users (RM, Ops, Compliance)
 - Role-based access control (RBAC)
 - Permission configuration (module-level access)
 - Maker-checker controls for internal actions
 - Audit logs for team activities
- Reports
 - Operational reports (onboarding, transactions, WPS, etc.)
 - Financial & usage reports
 - Custom report generation

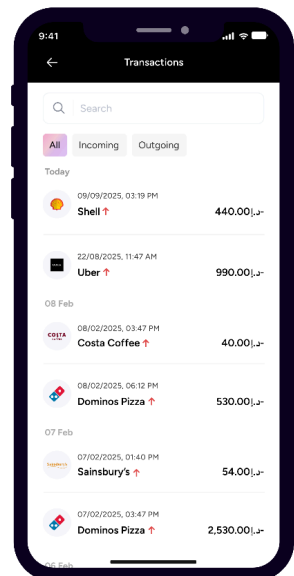

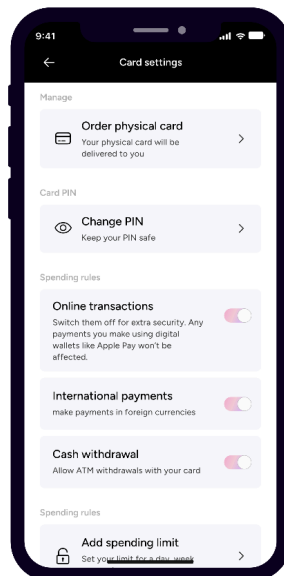

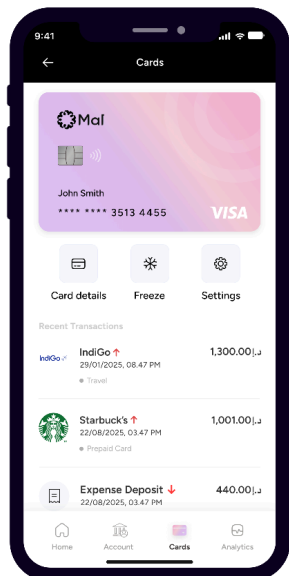

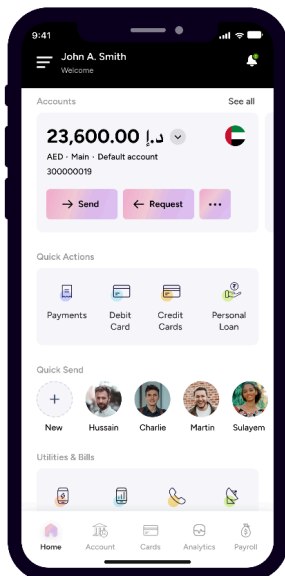

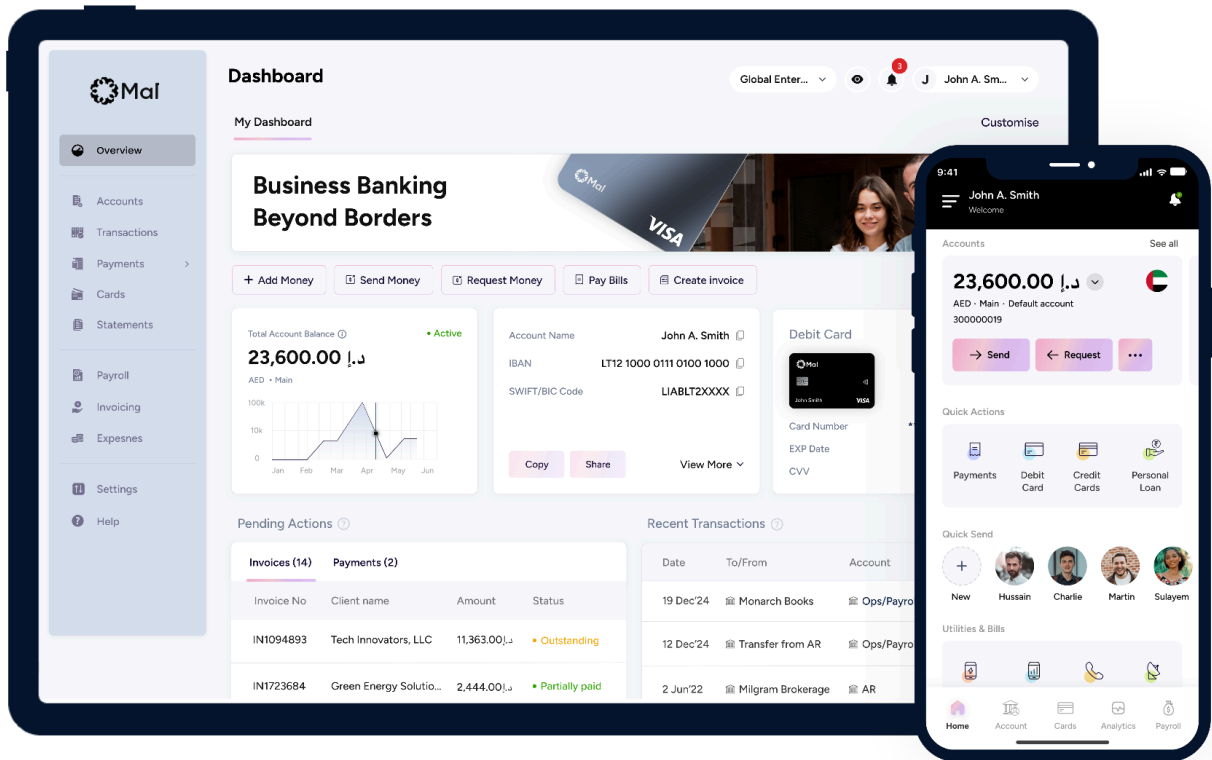

Integrations - Third Party

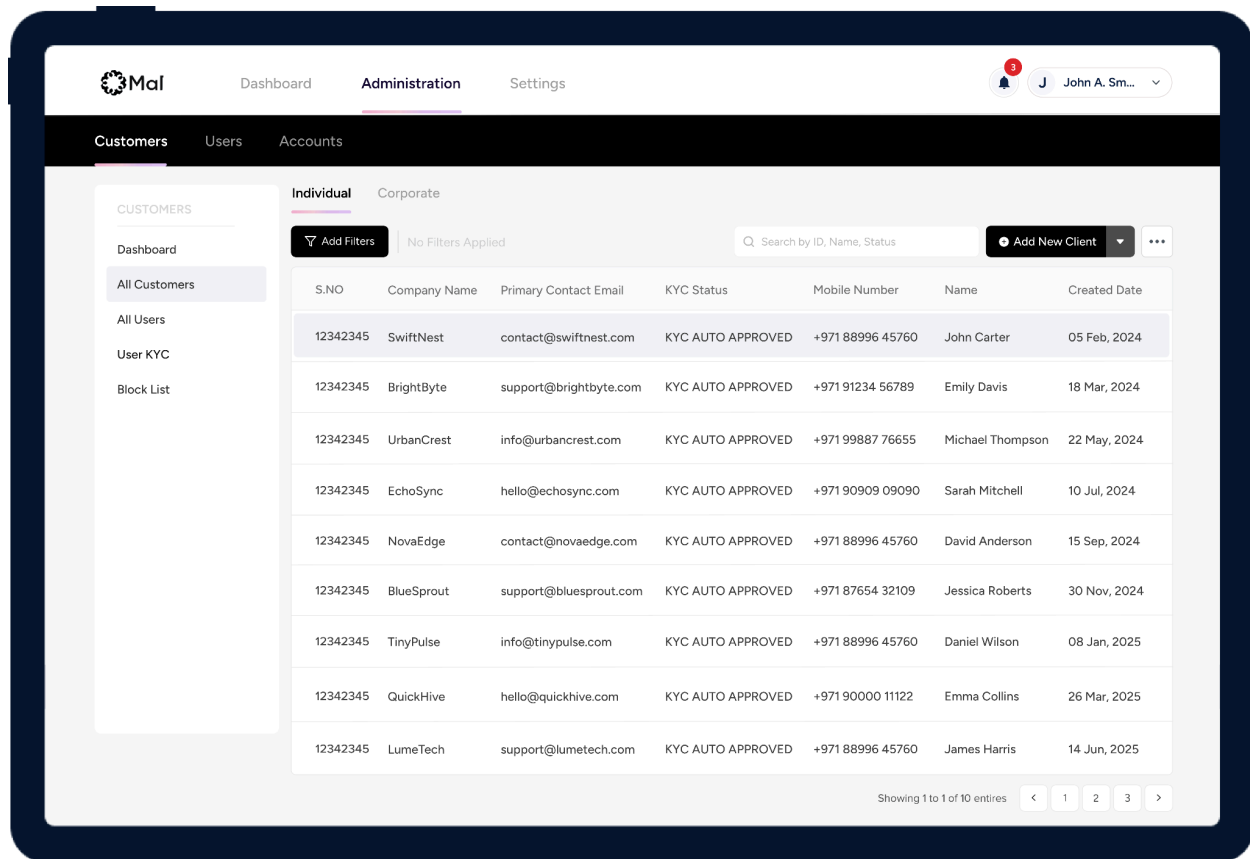

- Corebanking or Sponsored Bank (BaaS /Core Banking)
 - Integration with sponsored banks (e.g., Zenus, UAE-based banks)

	○ Core banking connectivity (accounts, ledger, transactions) - SaaS/Scada ● Card processor ○ Integration with card issuing partners (I2C, Areeba, Clowd9 etc) ○ Tokenisation (Apple Pay / Google Pay readiness) ○ Card lifecycle management (activate, block, limits) ○ Transaction authorization & settlement ● KYC/AML ○ KYC / KYB providers (document verification, OCR) ○ AML screening (sanctions, PEP, adverse media) ● Payment Rails (Direct or with Core) ○ UAEFTS (Central Bank UAE) for domestic transfers ○ WPS integration for payroll (SIF processing) ○ SWIFT for international payments ● SMS/Email gateway integration ● WPS
