

Proposal for MAL

25th of June, 2025

Proposal valid through 30th of August, 2025

Core Platform

Dashboard

A comprehensive dashboard to administer fraud-fighting programs. Includes investigation GUIs and workflows, Case Management, Rule Engine, and more.

Device Intelligence & Behavior Biometrics

Collect, analyze, and respond to end-user device data to effectively defend against both common and sophisticated fraud and abuse use cases.

Premium Support

Hands-on support fine tuning fraud prevention programs for your business utilizing Sardine's fraud and compliance industry veterans.

Integration Support

Technical Integrations Engineer who provide real-time guidance to you through design, development, testing and deployment.

Onboarding/KYC

Email + Phone + Address data enrichment

Verify the identity of individuals interacting with your product through email and phone verification.

Doc KYC

Extract information from IDs in real-time (<20 sec) with real-time feedback on errors to ensure KYC compliance.

Sanctions + PEP + Adverse Media

A robust sanctions compliance solution that meets or exceeds country and region specific regulatory requirements and definitions.

AML Transaction Monitoring

Ensure compliance with the latest regulations for both fiat and crypto, while minimizing false positive rates.

Know-your-business (KYB)

Verify and validate the identities of businesses to reduce risk, improve onboarding efficiency, and comply with regulatory requirements.

Payment Fraud

Bank Funding Fraud

Real-time risk-scoring to detect and alert fraud at time of bank account linking and on subsequent transactions.

Card Fraud

Proprietary card fraud model to quickly cancel and block unauthorized card transactions. Match the digital identity of user at checkout with attributes on file with card issuers

Issuing Fraud

Monitor vast quantities of card transactions and fortify your business against the unpredictability of disputes. Sardine's Issuing Risk model excels in identifying granular and complex patterns.

Platform

Product

Fraud & Compliance Dashboard

Description

A comprehensive dashboard to manage fraud investigation and BSA/AML compliance. Includes L2 Case Management, 1000s of pre-built AML/CTF rules, SAR/UAR filing, and continuous Effectiveness Testing to evaluate financial crime program performance.

The dashboard comes with 10 seats.

Pricing

Per month

\$10,000

Highlights

Case Management

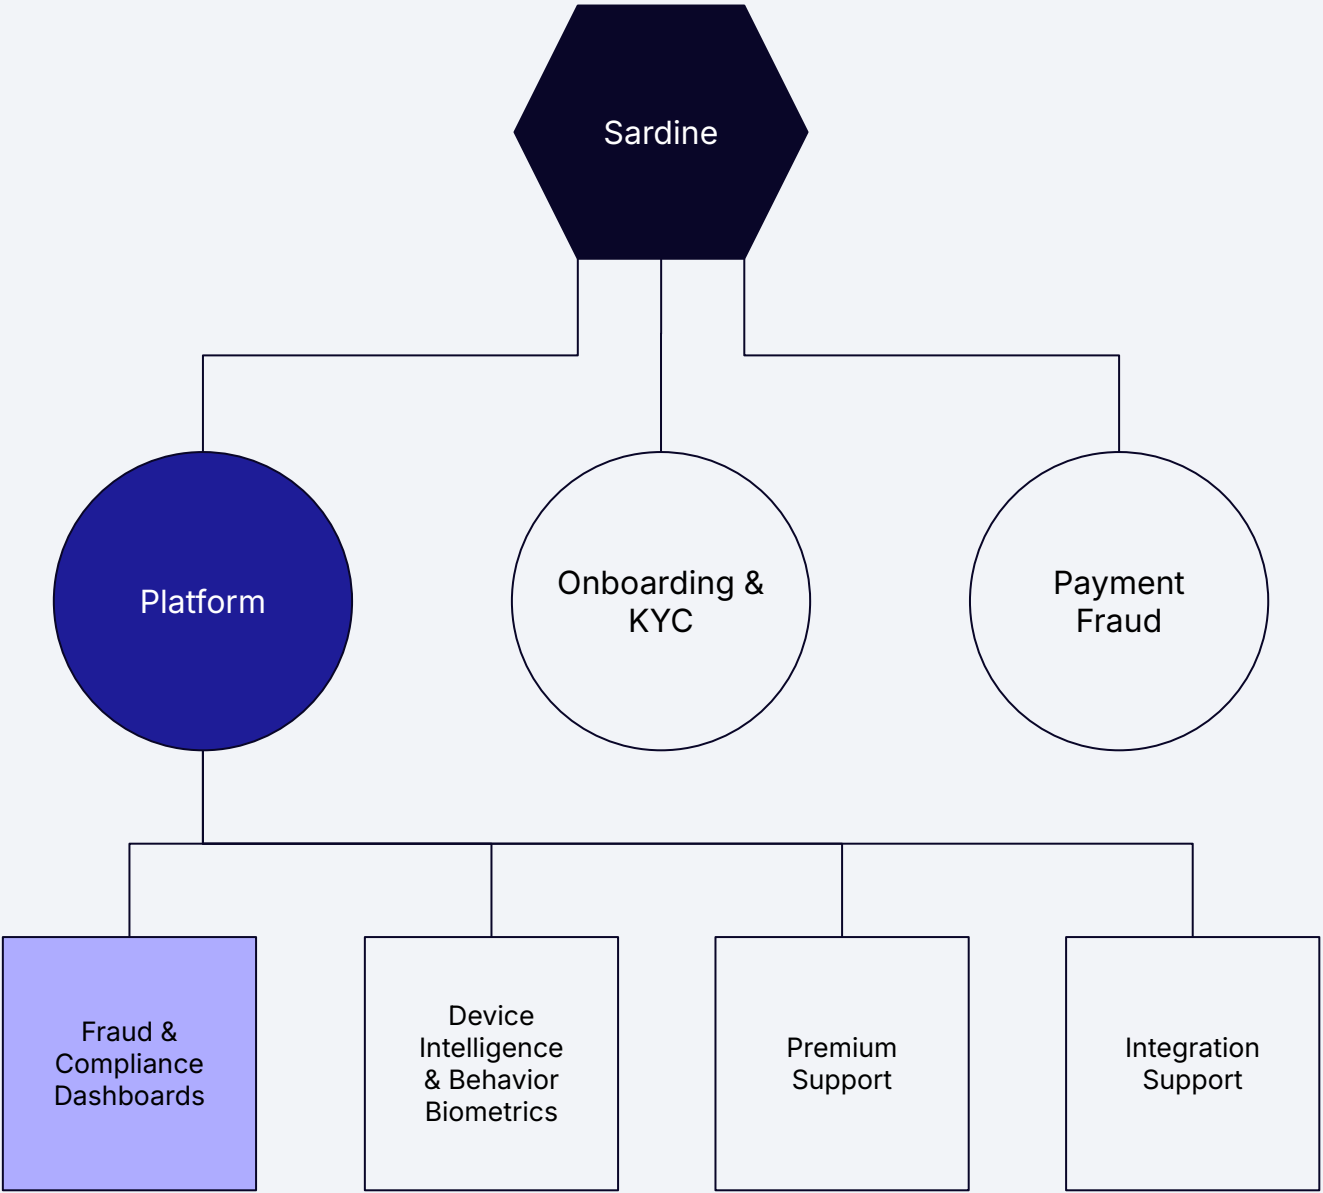

Detail pages that display all relevant intelligence, such as network graphing to help determine if a user, device, session, or transaction is fraudulent.

Streamlined SAR/UAR Filing

Workflow management for teams doing investigative work.

Rule Engine

Create custom logic without code and/or pull from rule libraries that we constantly refine.

Platform

Product

Device Intelligence & Behavior Biometrics

Description

Sardine's proprietary technology enables you to effortlessly collect, analyze, and respond to end-user device data.

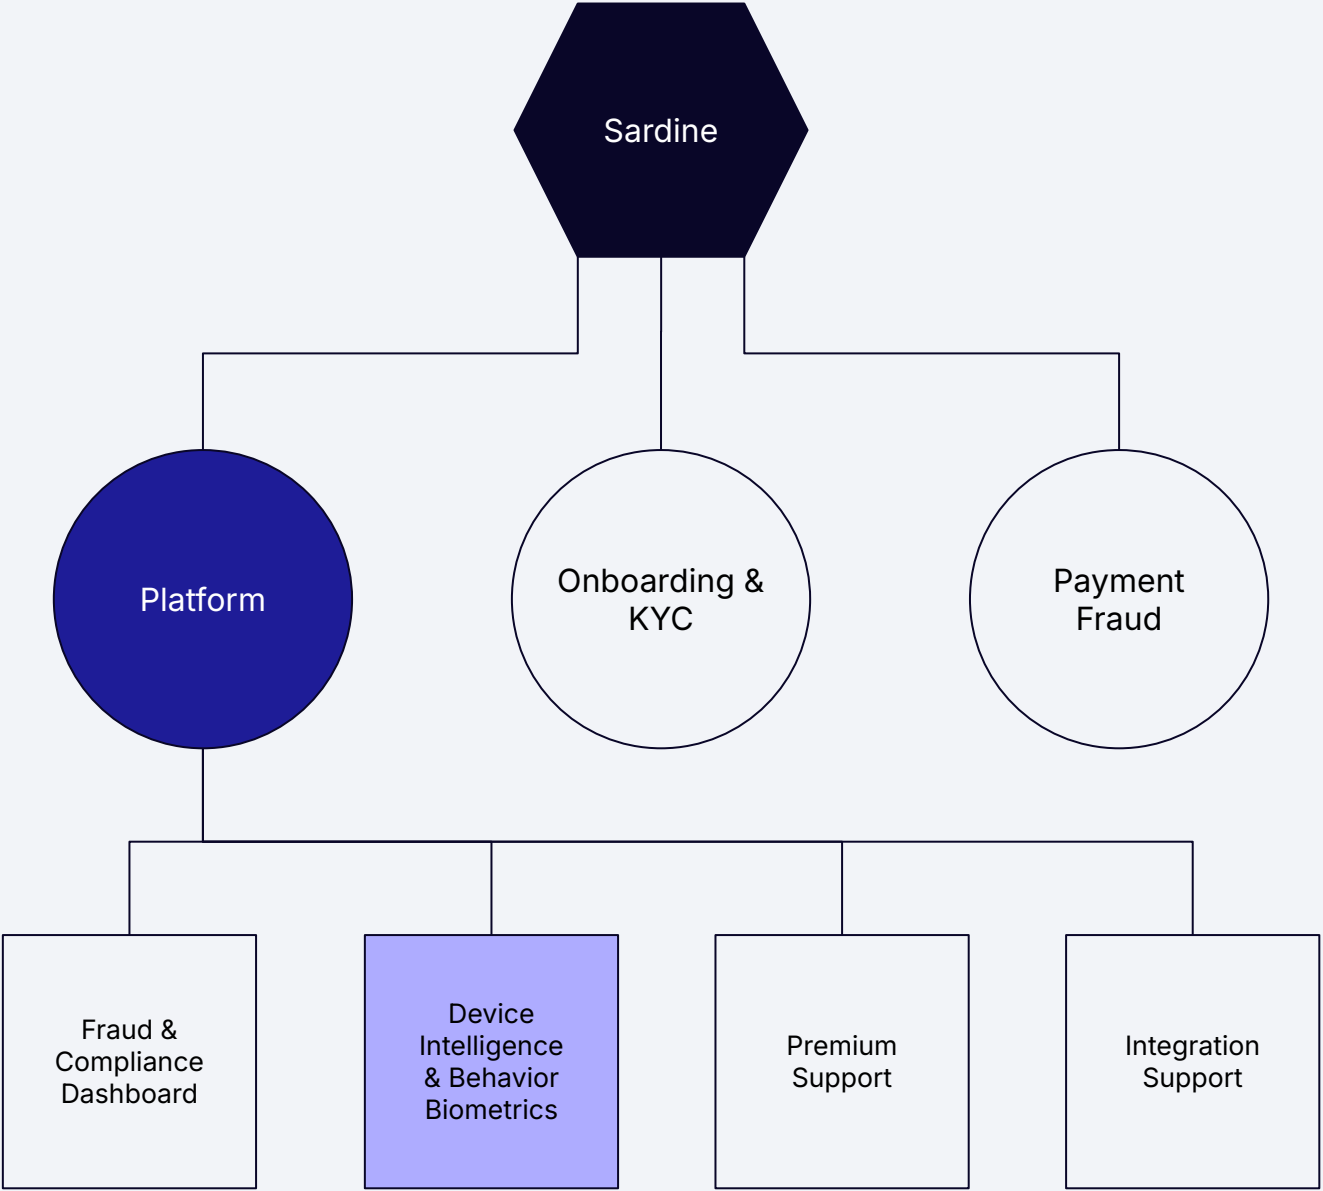

Utilizing end-user device data is crucial; it is the most effective way to proactively defend against both common and sophisticated fraud and abuse use cases, such as account-takeover, payment fraud, referral abuse, and more.

Pricing

Per Monthly Active User (unlimited API calls)		+	Per API call (handy at registration)	
\$0.080	0 - 1M / year		\$0.020	0 - 1M / year
\$0.060	1M - 5M / year		\$0.015	1M - 5M / year
\$0.045	5M+ / year		\$0.012	5M+ / year

Highlights

- Web SDK and Native App that runs without slowing down your user's experience.
- Integrates on web/mobile in a day
- Advanced browser fingerprinting
- Constantly adapting AI models
- Remote desktop, bot, and proxy/VPN detection

Product

Identity Fraud Data Enrichment

Description

After extensive testing, Sardine has integrated the best in class providers of email and phone verification, both crucial towards helping to verify the identity of individuals interacting with your product.

Highlights

- Email, age, social profile, domain & more
- Phone signals: type, carrier, name matching
- Real-time signals (vs static databases)

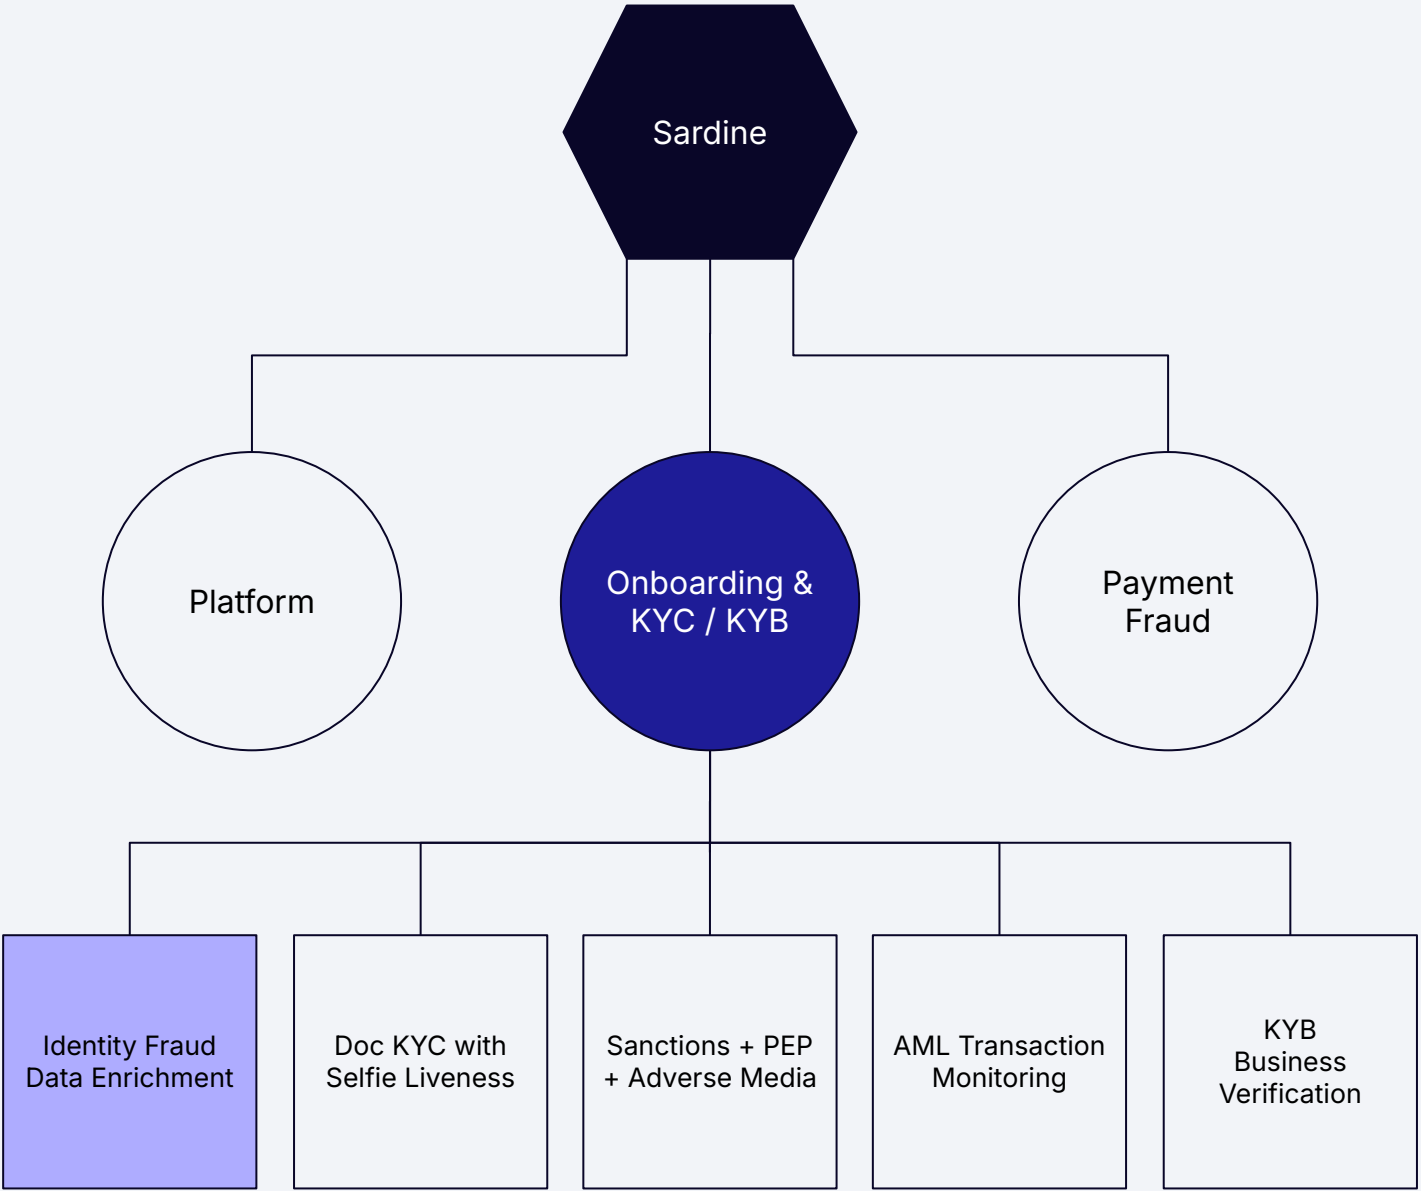

Pricing

Per email check at onboarding

\$0.060	0 - 1M / year
\$0.054	1M - 5M / year
\$0.048	5M+ / year

+ Per phone check at onboarding

\$0.130	0 - 1M / year
\$0.100	1M - 5M / year
\$0.092	5M+ / year

Product

Doc KYC with Selfie Liveness

Description

Extract information from IDs in real-time (<20 sec), with real-time feedback on errors to ensure KYC compliant images are collected.

Our workflow automation allows your compliance professionals to create rules about when skip documentary KYC, limiting expense and improving signup conversion.

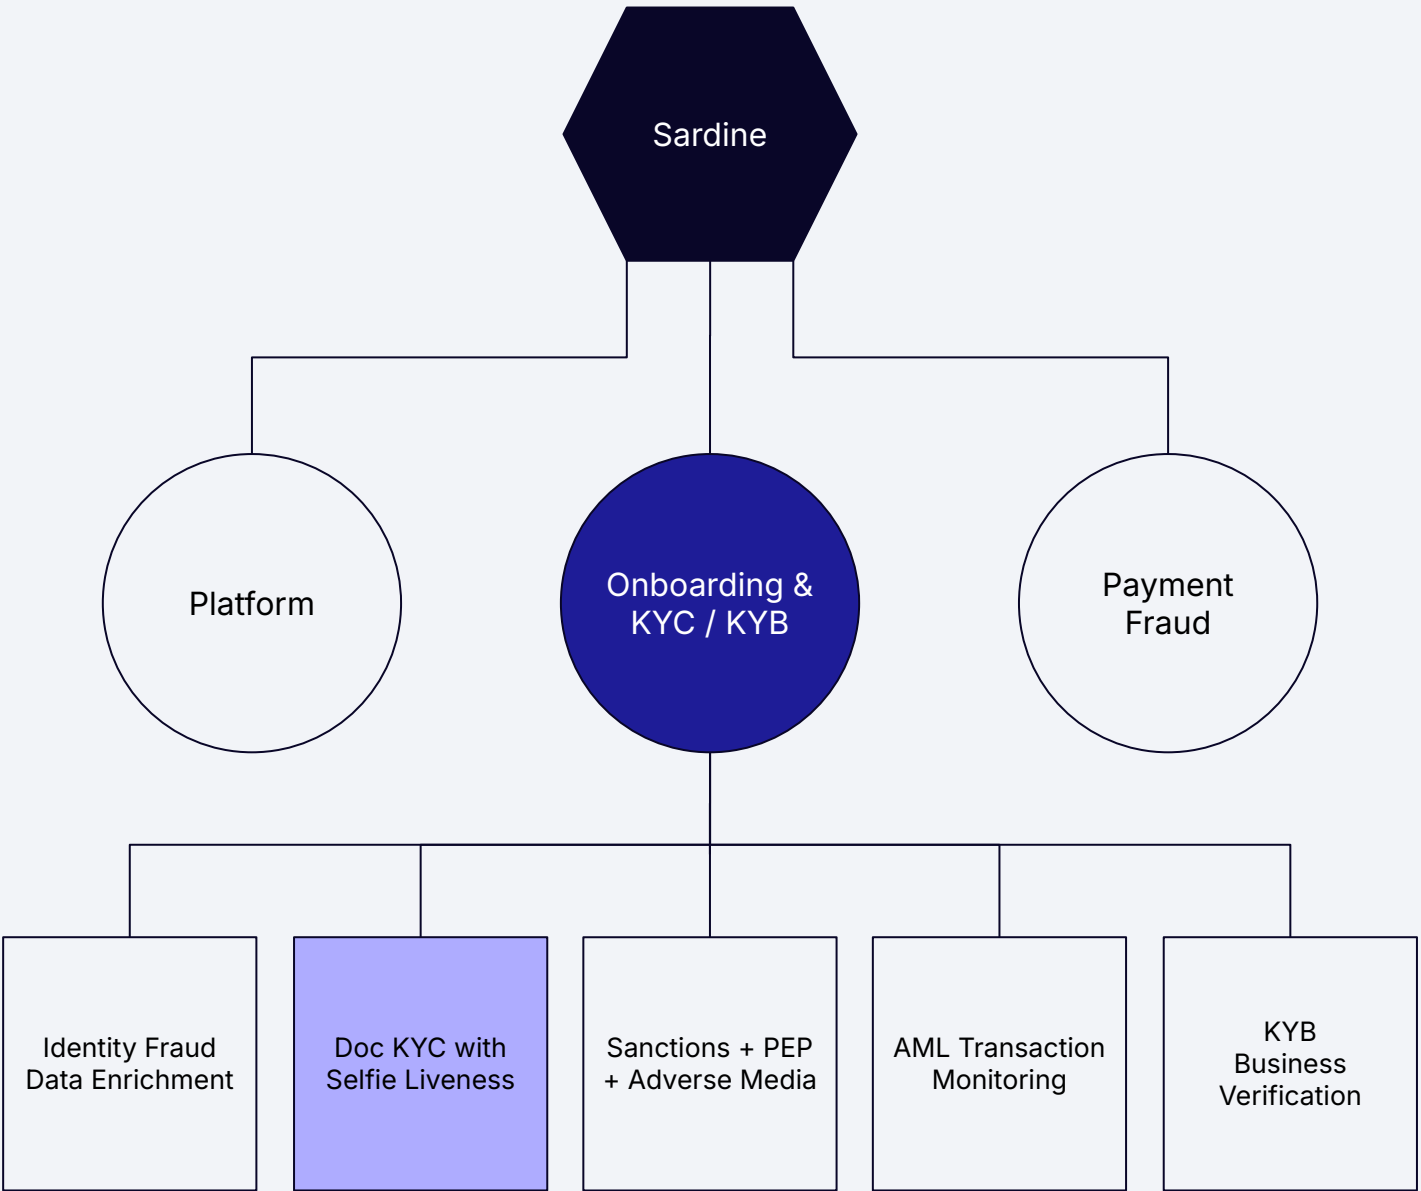

Highlights

- Selfie liveness detection
- Over 4,600 document types supported
- 200 countries & territories

Pricing

Per ID verification

\$1.10	0 - 1M / year
\$0.92	1M - 5M / year
\$0.83	5M+ / year

Onboarding & KYC / KYB

Product

Sanctions + PEP + Adverse Media

Description

A robust sanctions compliance solution that meets or exceeds country and region specific regulatory requirements and definitions.

Identify high-risk users on Politically Exposed Persons, Suspected Designated National, and OFAC lists, as well as users who have Adverse Media hits against them.

Ongoing monitoring takes the worry and cost out of periodically rescreening your portfolio of users.

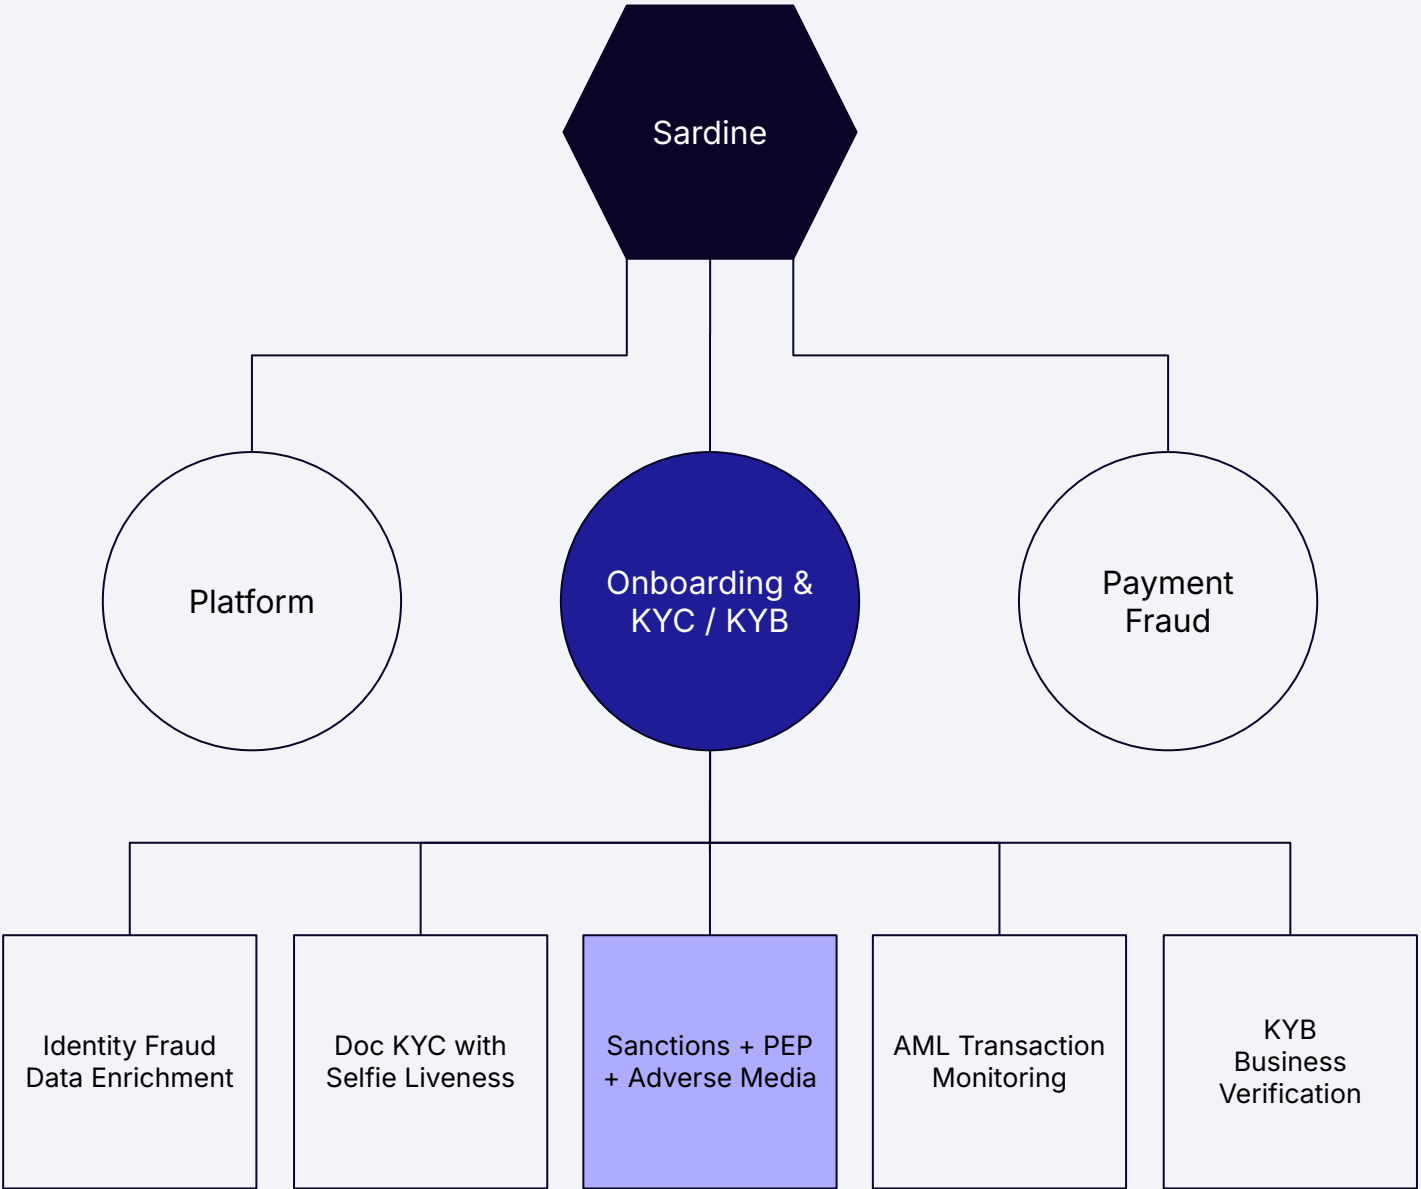

Pricing

Per user per year

\$0.43

Per user in portfolio monitoring per year

\$0.21

Product

AML and Fraud Transaction Monitoring

Description

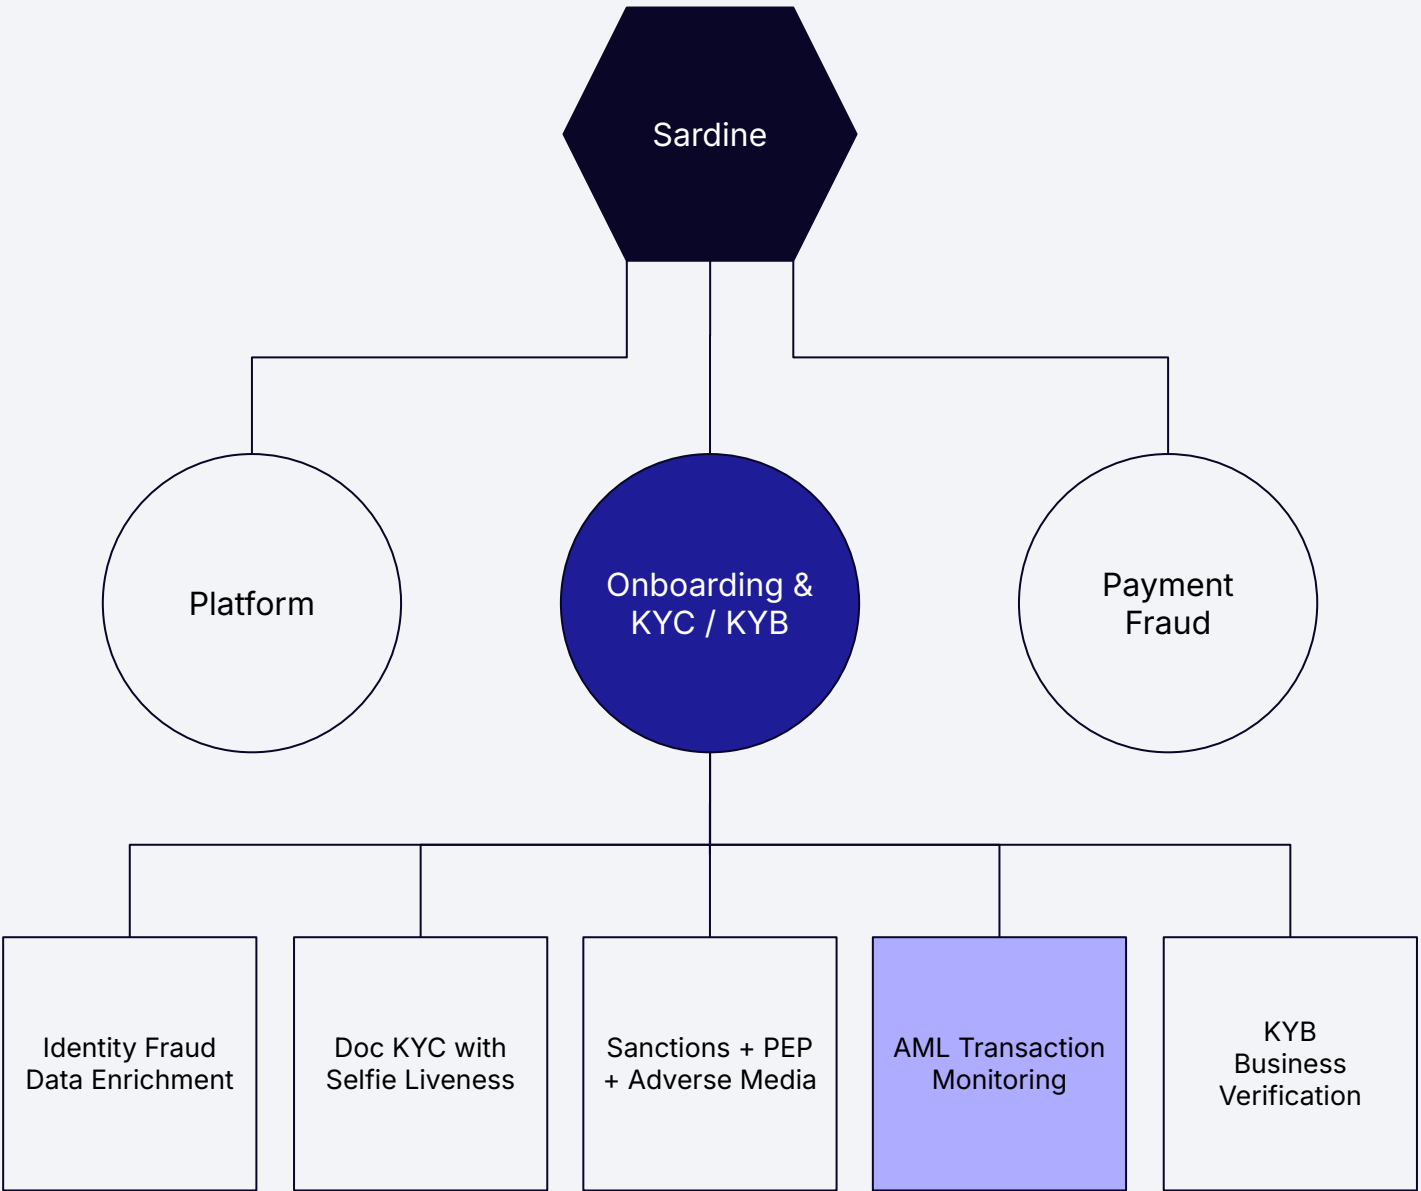

Designed to not only ensure compliance with the latest regulations for both fiat and crypto, but also streamline operations by minimizing manual effort and reducing false positive rates.

Innovative features set us apart from traditional monitoring software:

- **Real-time monitoring:** take immediate action rather than having an analyst review a series of historical transactions before deciding next steps.
- **Incorporating customer risk scores:** understand the broader context of transactions, for example, if a user is affiliated with a politician i.e. Politically Exposed Person (PEP).
- **Precreated rules:** 100s of the most common typologies pre-created and available the moment you sign & integrate with us

Pricing

AML monitoring per transaction		+	Fraud monitoring per transaction	
\$0.0060	0 - 50M / year		\$0.0060	0 - 50M / year
\$0.0045	50M - 500M / year		\$0.0045	50M - 500M / year
\$0.0035	500M+ / year		\$0.0035	500M+ / year

Product

Payment Counterparty Screening

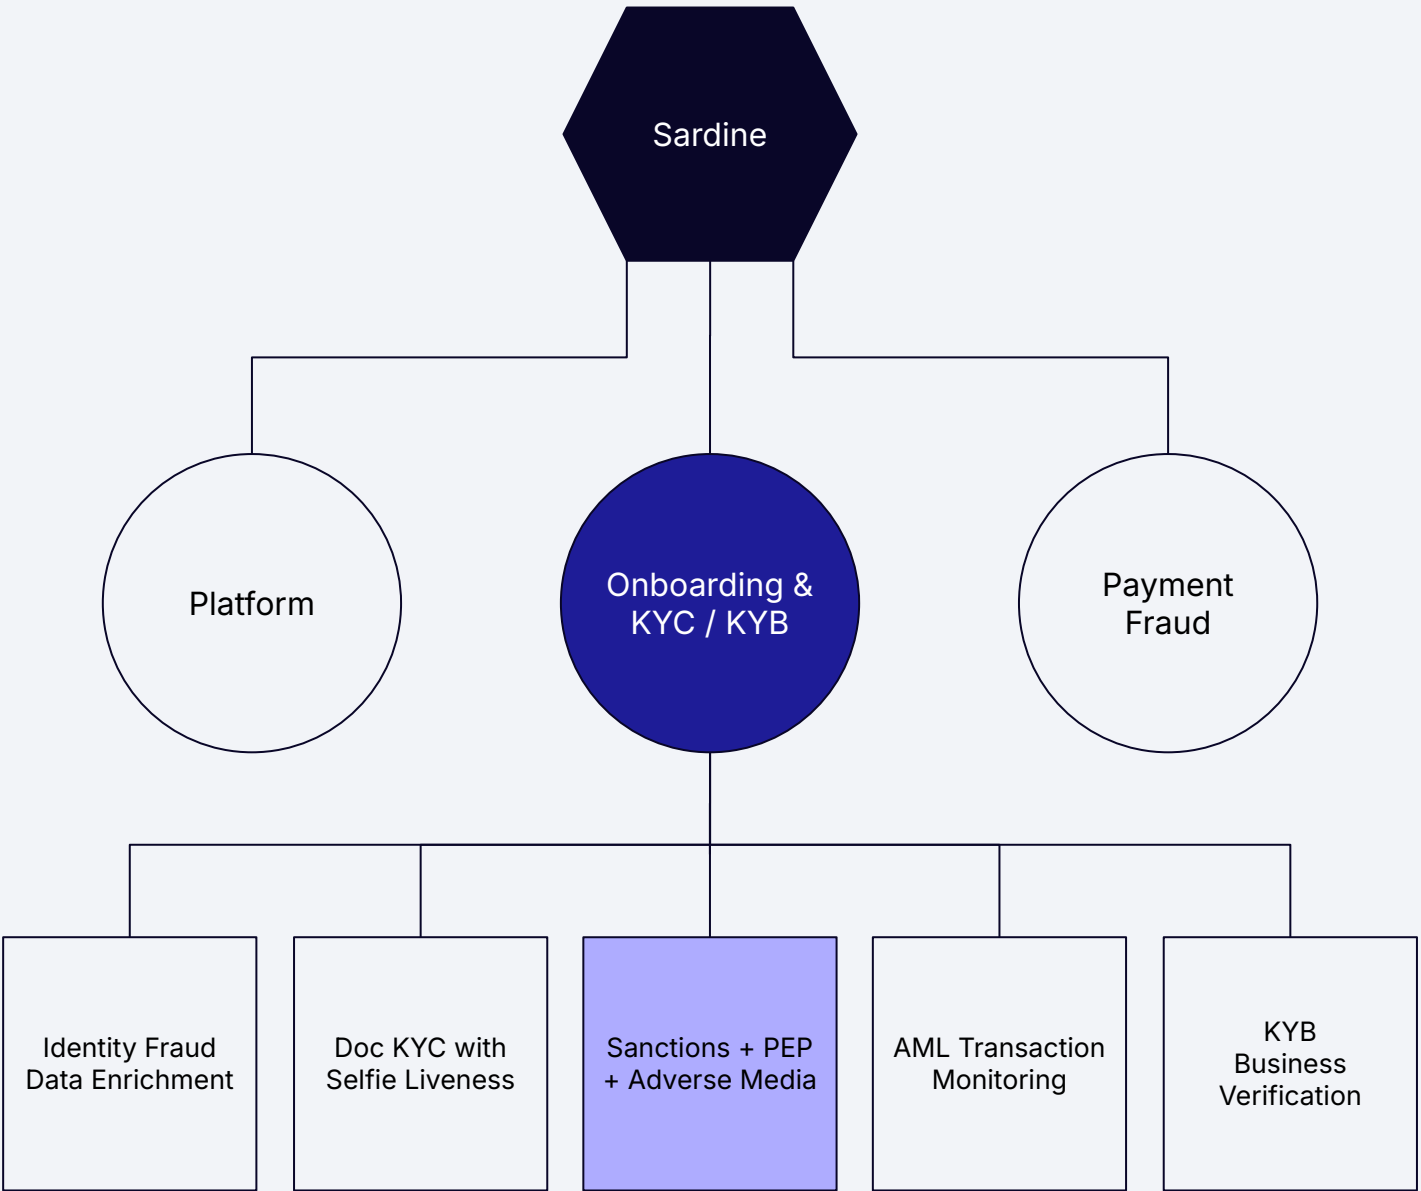

Description

A robust sanctions compliance solution that meets or exceeds country and region specific regulatory requirements and definitions. It screens the counterparty on global major sanctions lists.

Pricing

Product

Premium Support

Description

Hands-on support fine tuning fraud prevention programs for your business utilizing Sardine’s fraud and compliance industry veterans.

Sardine's Premium Support service provides a unique opportunity for companies to elevate their proficiency in combating fraud.

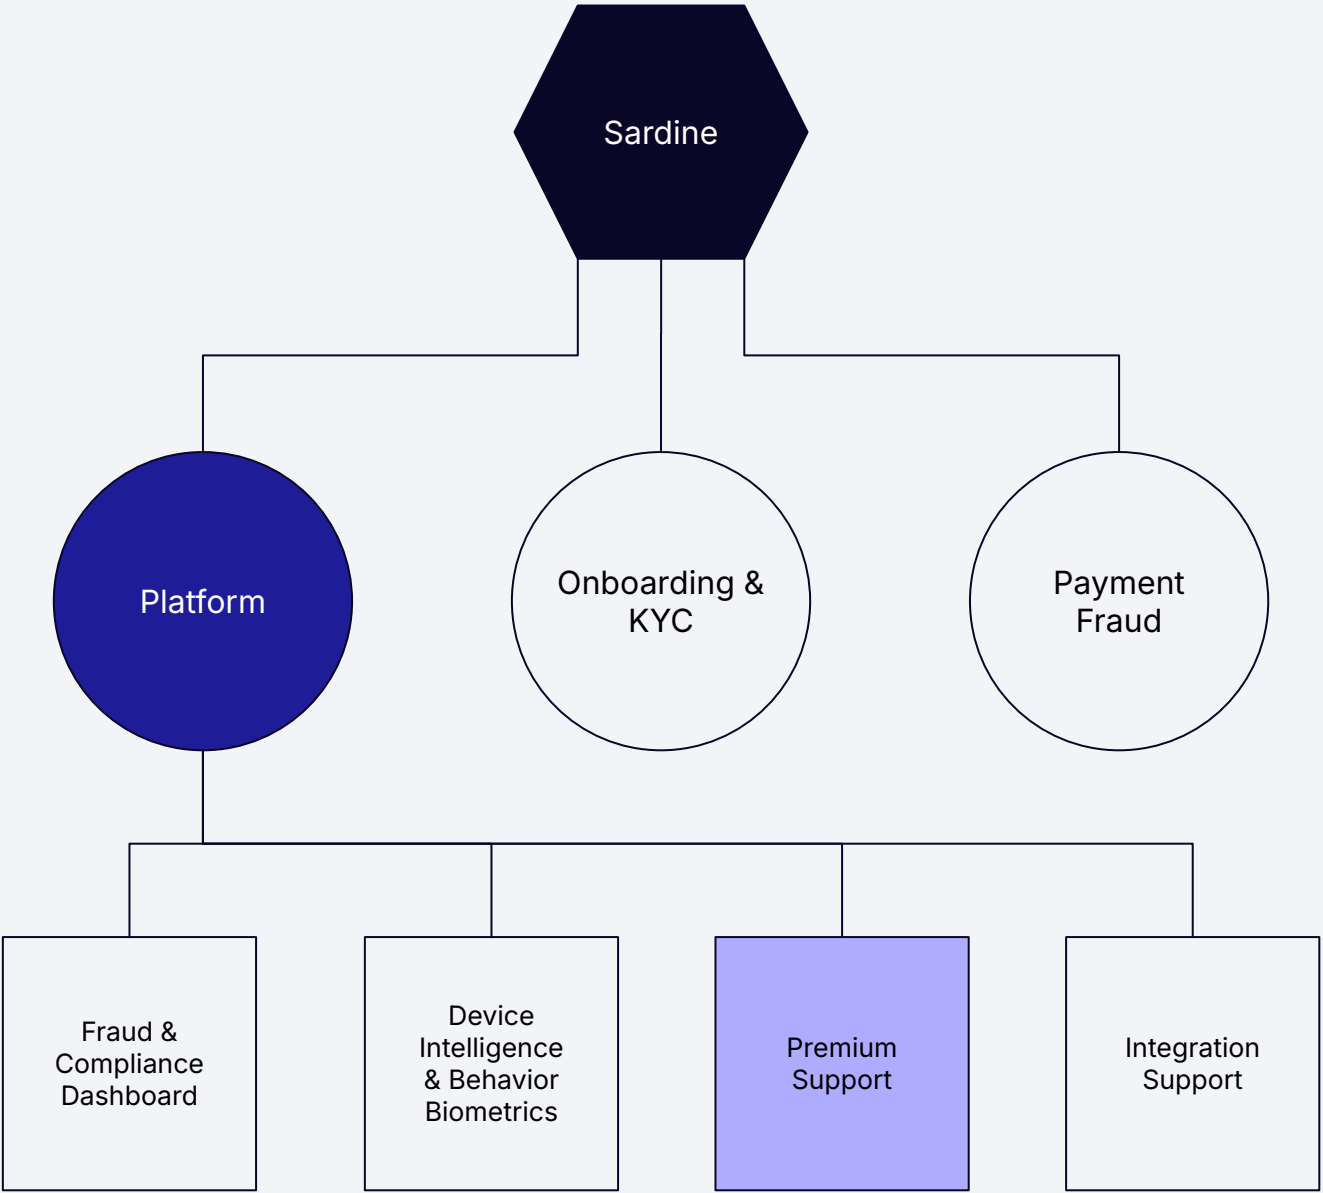

Highlights

- Account Manager and auxiliary Sardine team (e.g., risk analyst, ML engineer, fraud ops)
- Training and validating up to 1 custom machine learning model.
- Dedicated Slack channel post-integration.
- Within one business day response
- Weekly Fraud Check-in

Pricing

Per month

\$5,500

Product

Enterprise Strategic Support

Description

- Everything from Premium Support along with the following:
- 40 hours of onboarding data analyst
 - Senior Named Account Manager
 - Fraud ring investigations
 - Data Analyst support and consulting
 - Monthly rule-building support.
 - Custom feature development
 - Custom machine learning models
 - Response times 15 minute and 24/7 availability (P1)
 - Proactive alerts on suspicious activity

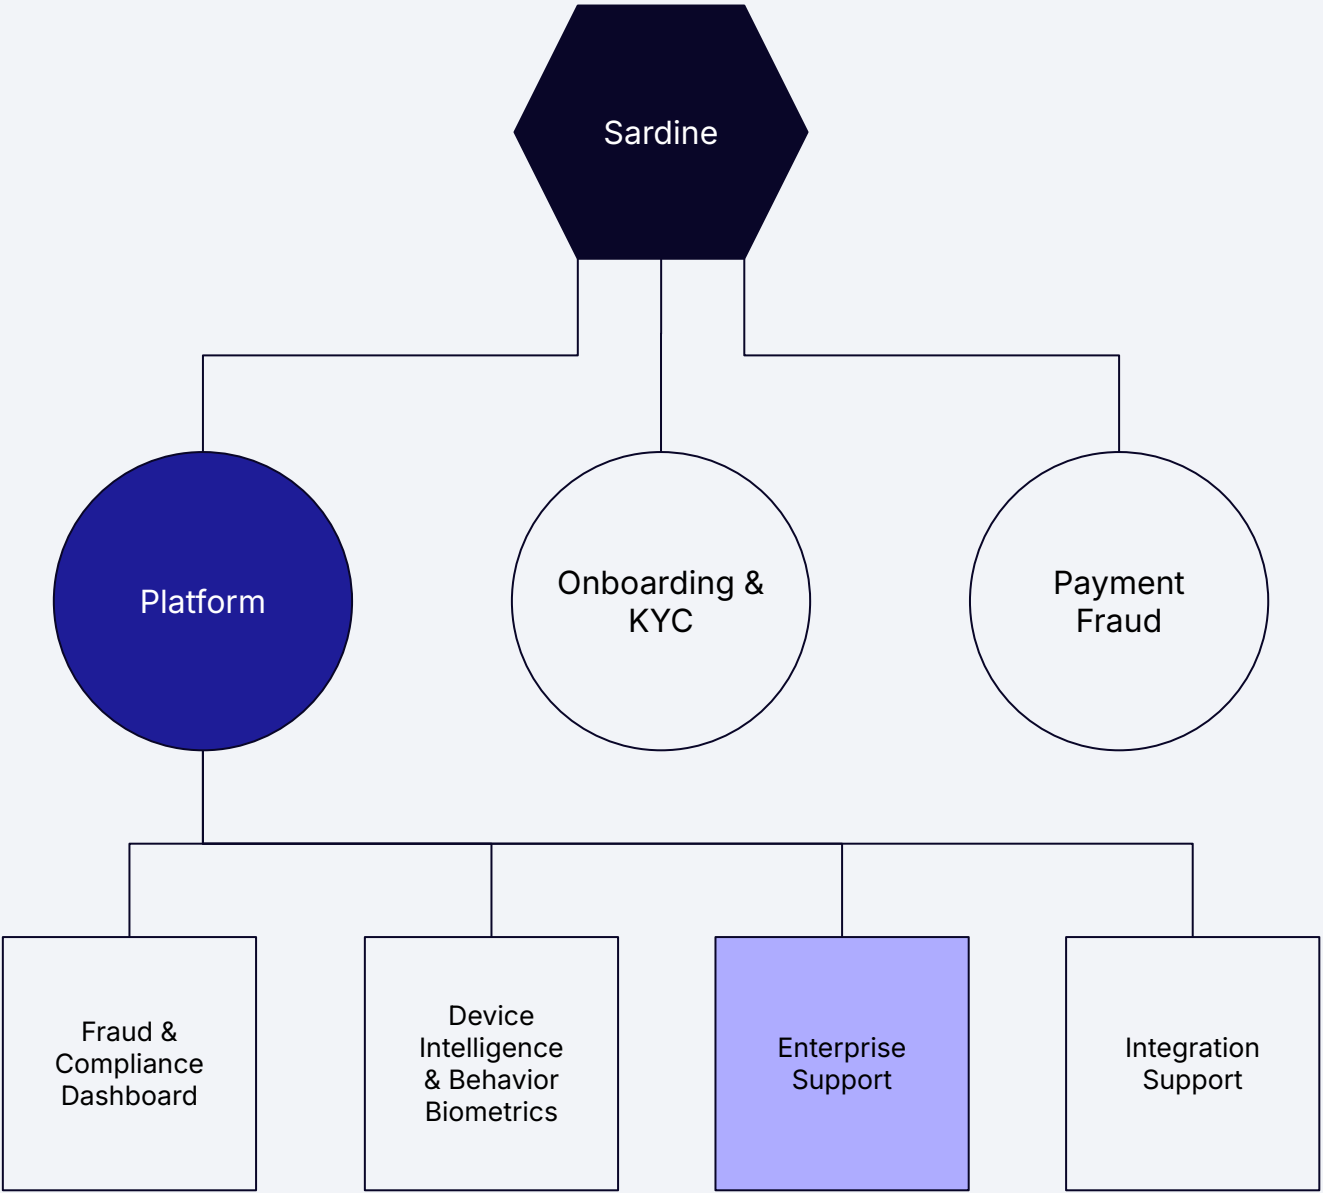

Highlights

A much more extensive form of support so that MAL does not need to hire a large team but can rely for much work on Sardine's expertise - especially with regulatory scrutiny in the region it's important to be set-up (and stay that way) in the correct form.

Pricing

Per month

\$11,500

Product

Integration Support

Description

Sardine staffs every customer with a veteran Technical Integrations Engineer who will answer questions and provide guidance through design, development, testing and deployment.

In addition to direct support, Sardine provides product integration guides.

Highlights

- Dedicated Integrations Engineer
- Dedicated Slack channel to ask questions
- Product integration guides
- Bi-weekly meetings during integration

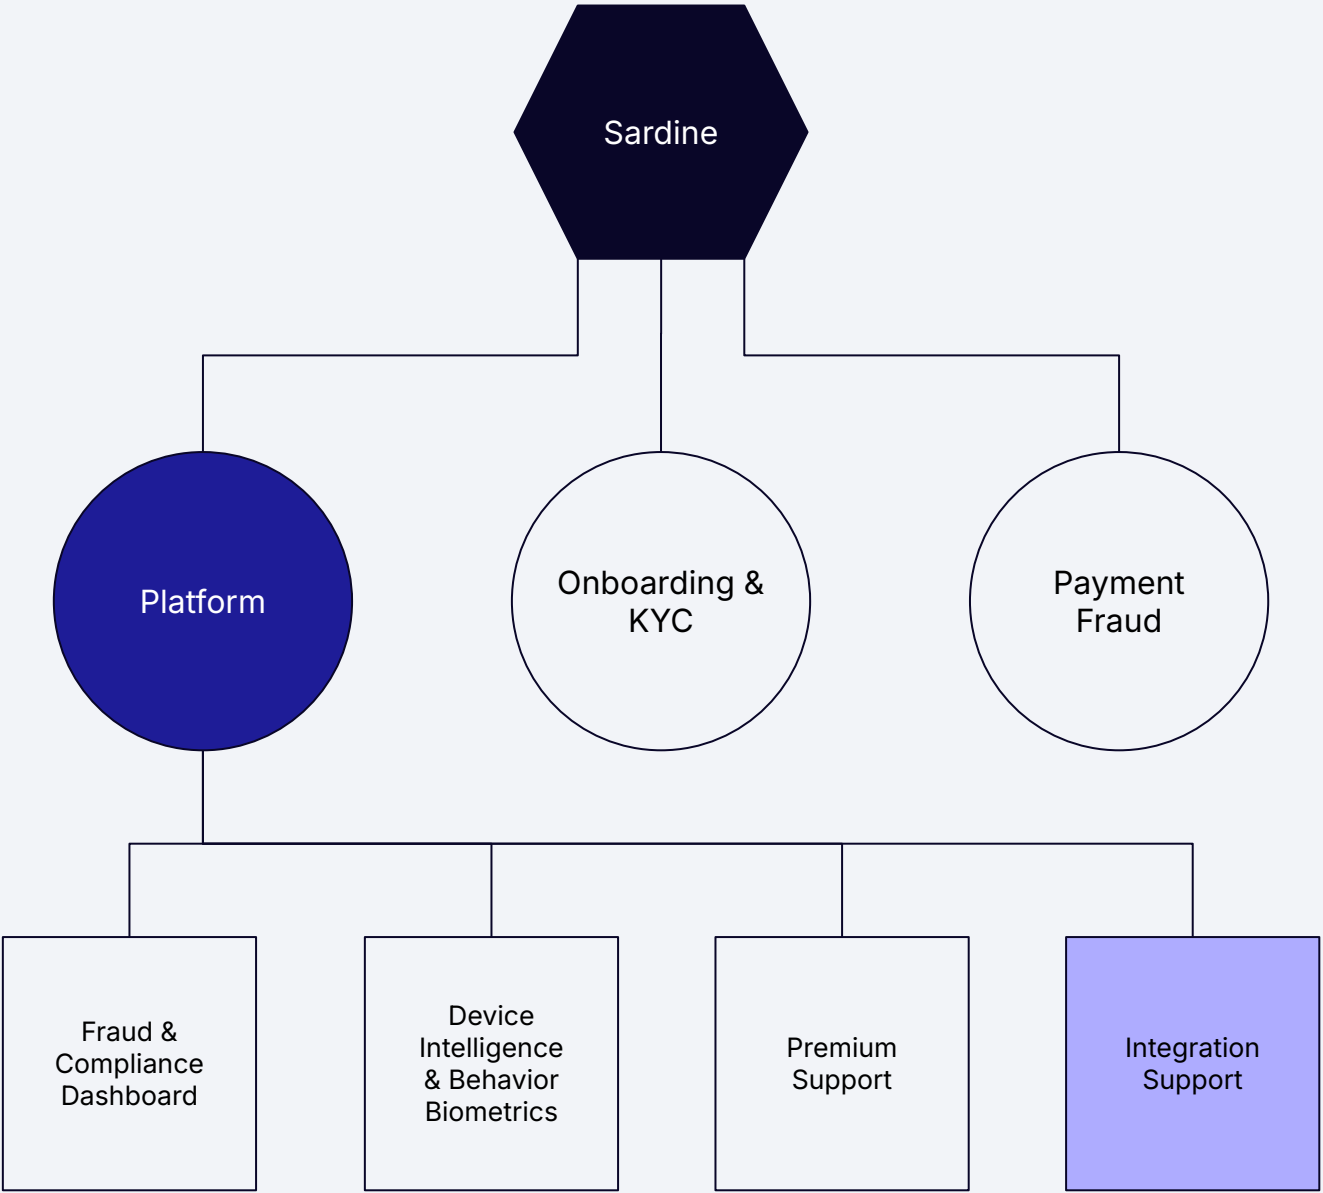

Pricing

For first two months

\$15,000

+ Per month if service required after 4 months

\$5,000

Pricing Overview

Products	Commitments	Discounted Pricing Terms
Sardine Fraud and Compliance Platform Single source of truth for Fraud and Compliance with no-code Rules Engine, Reporting, Analytics, Alert Queues and Case Management	\$10,000 / per month	Rate assumes up to 10 seats with \$375 per seat per month.
Device Intelligence and Behavior Biometrics Advanced Bot, ATO, scam and muling prevention	\$24,833 / per month	Discounts are based on screening 500K users pre-KYC in Y1 (per API call) and on-going monitoring 500K at every interaction (e.g., login, account funding) for a fixed monthly active user fee.
Global Phone and email intelligence Real-time phone and email risk scoring	\$7,917 / per month	Discounts are based on screening 500K users pre-KYC in Y1 on phone and email.
Global KYC with selfie liveness Real-time ID extraction and verification with deepfake protection and AI resolution of alerts	\$45,833 / per month \$2.50 / per AI resolved alert	Discounts are based on onboarding 500K users in Y1.
