

Custom Physical Cards

Options, Requirements, Process & Pricing

Physical Card Options

	Generic Cards	Logo Cards	Custom Cards
			
Description	• White card no program-specific branding • Delivered in generic shipping carrier	• Logo added to the front of a generic white card (submit via the “Upload Custom Card Designs” form in the onboarding portal) • Delivered in a generic shipping carrier with the option to upgrade to custom shipping carriers and delivery materials	• Fully customized card design (front and back) • Customizable materials (e.g., metal, glass, illuminated finishes) • Delivered in a generic shipping carrier with the option to upgrade to custom shipping carriers and delivery materials
Timeline	Available immediately to all your users	• Custom logo only: ~4 weeks • Custom carriers: additional 2-3 weeks to set up with manufacturer	• A few weeks for design, followed by manufacturing lead times of up to 2–3+ months for certain designs. • Once produced and tested, cards are available via standard issuing APIs.
Recommended Use Cases	Ideal if you’re looking to go to market quickly, launch a pilot program, or issue a smaller volume of cards (fewer than 1,000).	Ideal if you’re looking to go to market quickly with a more branded experience, launching a pilot program, or issuing a smaller volume of cards (fewer than 1,000).	Ideal when physical cards are central to your brand experience and a core part of your business. Custom cards allow you to bring your brand directly into your customers’ wallets and are typically best suited for programs with meaningful volume goals.

Card Design Requirements

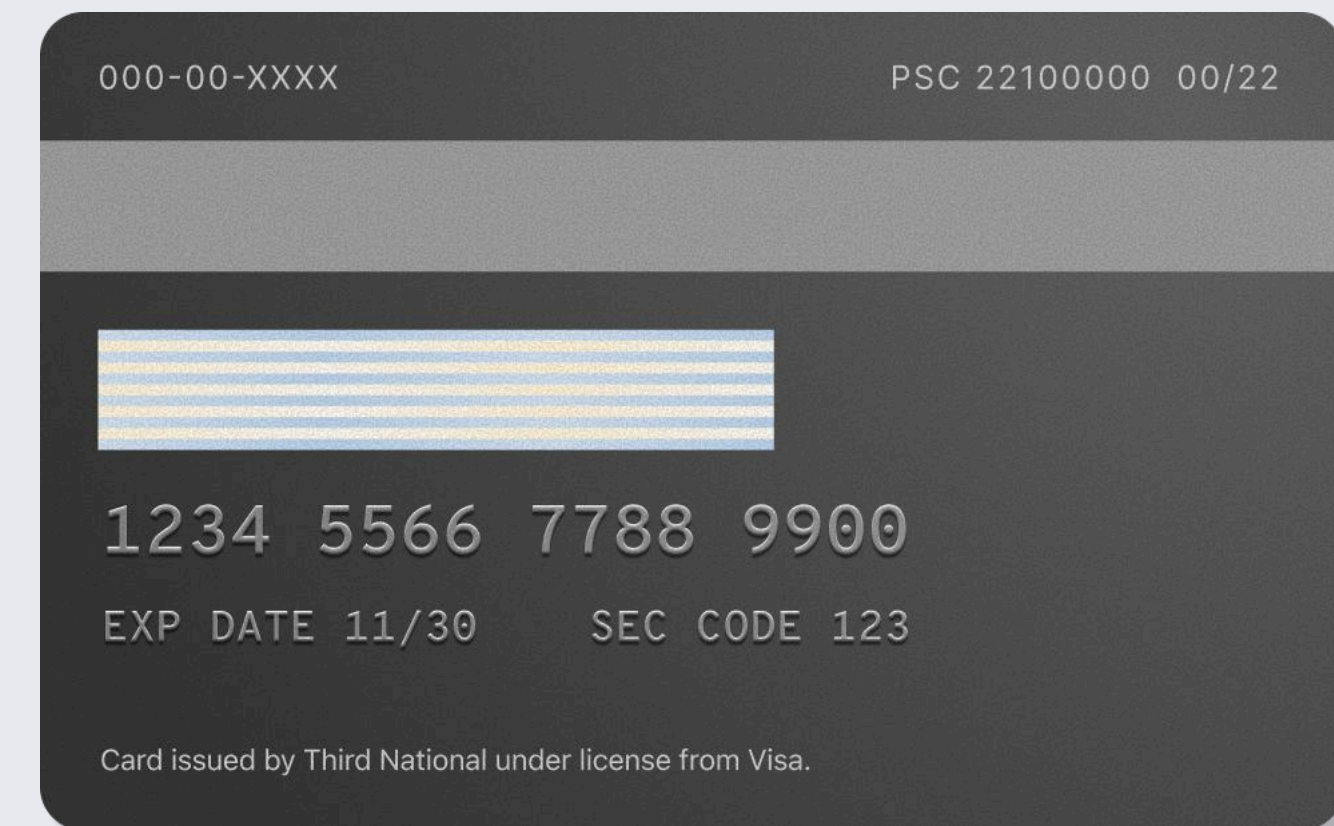

Visa Brand Requirements

All card designs must adhere to Visa's brand standards, including rules on placement and spacing of design elements.

- ✓ The visa logo must be one of the following: Visa Blue, White, Black, Silver, or Gold. Additionally, Visa offers the Premium Visa Brand Mark ("PVBM") in Blue, Silver, Gold, or Black. Utilizing the PVBM allows you to omit the Visa Dove from the back of the card.
- ✓ The logo can either be placed in the lower right, upper right, or upper left corners of the card. The Visa logo must be included in your card design and have enough contrast with the card background.

Rain Design Requirements

- ✓ All cards must also contain the following text denoting the card issuer: "Card issued by Third National under license from Visa." Please refer to the "Download Templates" folder.

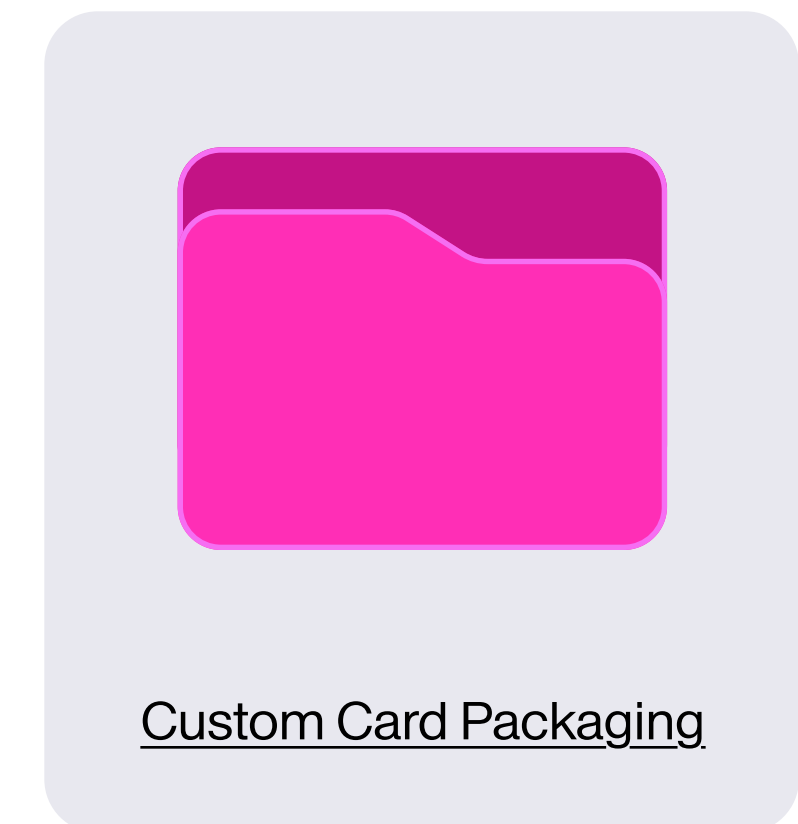

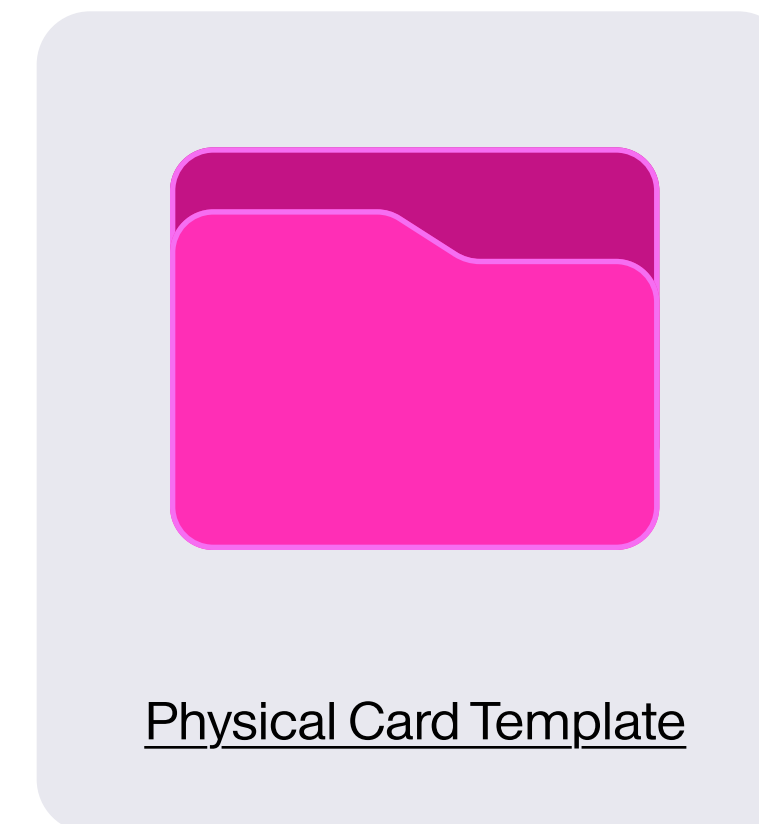

Submission Guidelines

Please submit your design files in **.ai** or **.eps** (vector format) with each design element in its own separate layer. Submissions should only use either **CMYK** or **PMS** color modes.

When design files are completed, please see the “Upload Custom Card Designs” form in your onboarding portal to submit your card design. The form will also request the following details to kick off the design approval and manufacturing process.

- ✓ Program (Consumer or Corporate)
- ✓ Card material
- ✓ Quantity
- ✓ Card color
- ✓ Magstripe color
- ✓ Finish (Matte or Glossy)
- ✓ Custom shipping carriers and delivery materials

Templates

Custom Card Process Overview

Design	 2 weeks	Submit designs via the “Upload Custom Card Designs” form in your onboarding portal. We’ll review and provide feedback, along with manufacturer pricing and minimum order quantities.
Proofing	 2 weeks	The printer generates a proof with artwork, colors, quantity, and materials for your approval before finalizing the order, and simultaneously submits the design to Visa for compliance review.
Approval	 2 weeks	A commercial proposal and proof are shared for your approval. Once approved and payment is made, we proceed to the next step.
Manufacturing	 10+ weeks	Cards are manufactured by the printer. Certain design and material choices may extend lead times by several months due to supply constraints.
Testing	 2 weeks	After cards are manufactured, they’re shipped to the personalization site to conduct testing to ensure they are functional and set up correctly.
Go Live	 1 week after testing	Cards are made live for your customers. All future physical card requests will default to your design.

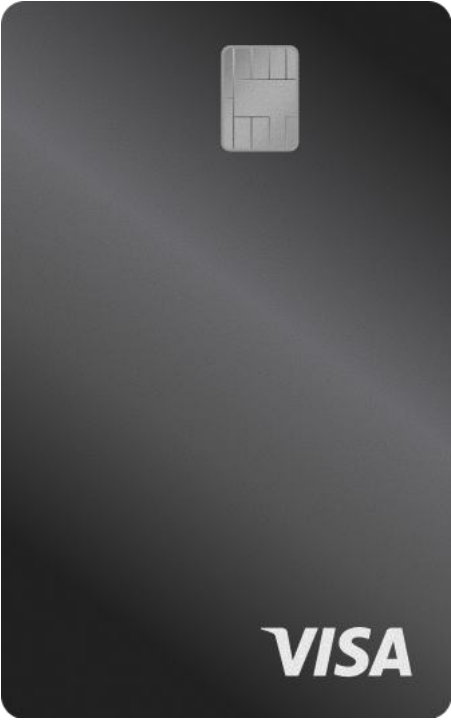

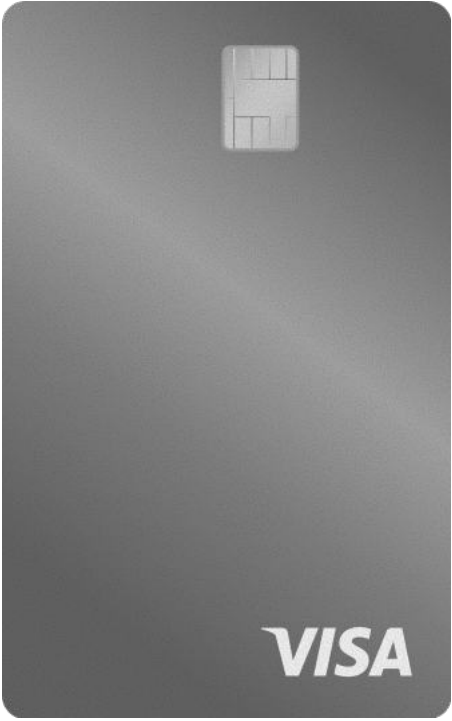

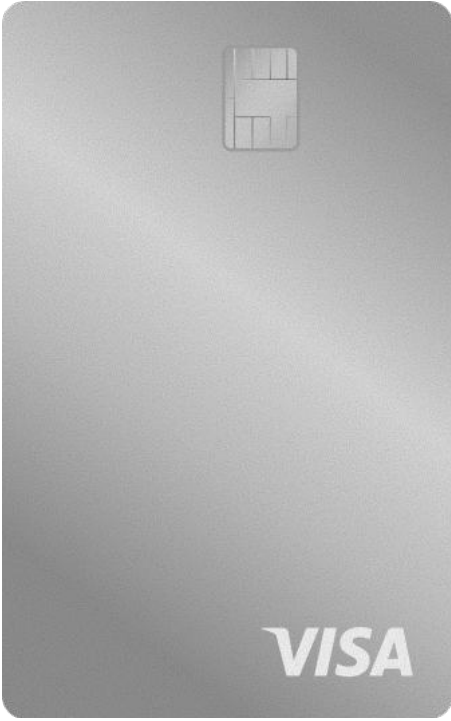

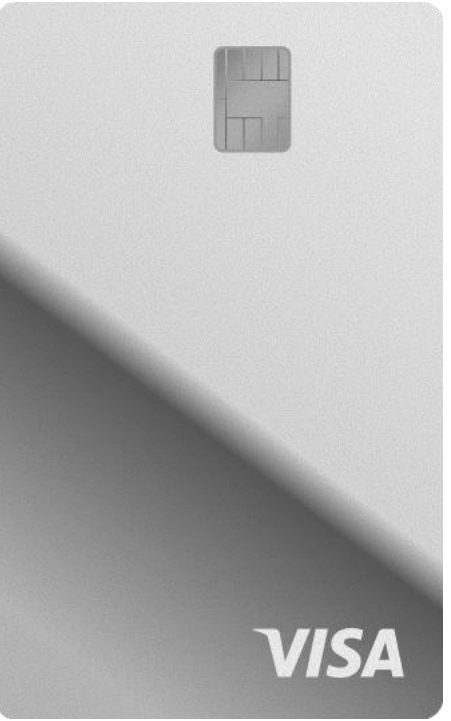

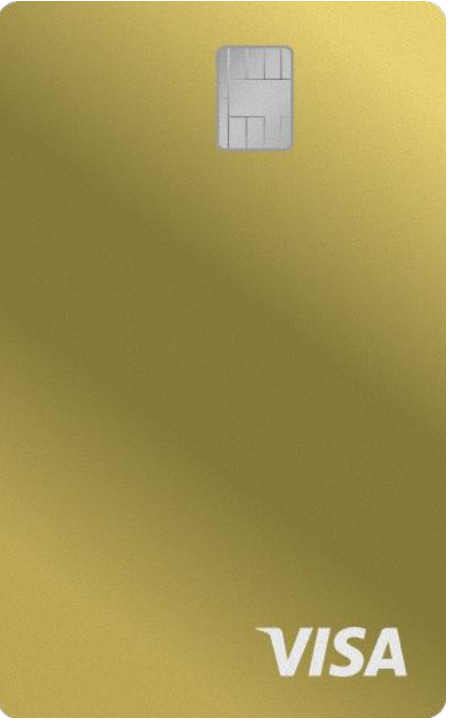

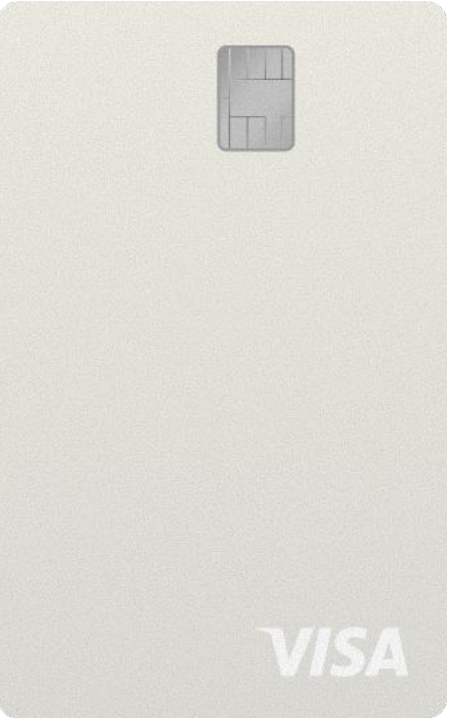

Plastic Card Pricing Estimates

Note: Pricing is budgetary and based on standard design formats. Final pricing is subject to change based on material costs and finalized specifications. Per-card personalization and ongoing fulfillment are not included and will be invoiced separately.

Designs below are representative examples based on common partner configurations and are intended for illustrative pricing purposes only; custom designs and specifications beyond these examples could be supported and can be discussed with your Rain Account Manager.

Design / Quantity	Description	5,000	10,000	25,000	50,000
Design 1	White core, gloss finish both sides, silver chip plate	\$2.30	\$2.09	\$1.93	\$1.77
Design 2	Colored core, matte finish, silver chip, glossy post lamination	\$2.86	\$2.61	\$2.43	\$2.26
Design 3	White core, matte finish, silver chip, glossy post lamination, silver glossy decorative edge	\$4.28	\$3.55	\$3.13	\$2.61

Metal Card Options

Embedded Metal	Metal Veneer	Metal Veneer Lite	Full Metal	Echo Mirror™	Artisan Gold	Metal Hybrid	Metal Hybrid Terra Ceramics™	Lux Glass™
								
12 grams	16 grams	14 grams	20 grams	20 grams	20 grams	20 grams	20 grams	7-8 grams
Stainless steel core with front and back PVC layers	Stainless steel with polymer back layer	Stainless steel with polymer back layer	Stainless steel with reduced polymer layer	Polished mirror finish stainless steel with polymer back layer	Metal composite with polymer back layer	Stainless steel with polymer back layer	Stainless steel with polymer back layer and ceramic coating	Corning® Gorilla® Glass with stainless steel surround

Metal Card Pricing Estimates

Note: Pricing is budgetary and based on standard design formats. Final pricing is subject to change based on material costs and finalized specifications. Per-card personalization and ongoing fulfillment are not included and will be invoiced separately.

Type / Quantity	Prototype Cost	1,000-4,999	5,000-9,999	10,000-49,999	50,000-100,000	100,000-250,000	Supplier Comments
Embedded Metal	\$3,000	\$18.60	\$18.60	\$16.20	\$16.20	\$16.20	Polymer front & back, metal edge (12 grams)
Metal Veneer	\$3,000	\$45.60	\$45.60	\$39.00	\$39.00	\$28.80	Metal front, polymer back, metal edge (16 grams)
Metal Veneer Lite	\$3,000	N/A	\$30.00	\$26.40	\$20.10	\$20.10	Metal front, polymer back, metal edge (14 grams)
Full Metal	\$3,600	\$129.60	\$127.20	\$121.20	\$121.20	\$102.00	Metal front and back, metal edge, (20 grams)
Echo Mirror	\$3,600	\$113.76	\$113.76	\$109.44	\$109.44	\$97.20	Polished metal front, polymer back, metal edge (20 grams)
Artisan Gold	\$3,600	\$113.76	\$113.76	\$109.44	\$109.44	\$97.20	Polished metal front, polymer back, metal edge (20 grams)
Metal Hybrid	\$3,600	\$229.20	\$222.00	\$214.50	\$207.00	\$202.50	Polished metal front, polymer back, metal edge (20 grams)
Metal Hybrid Terra Ceramics TM	\$3,600	\$229.20	\$222.00	\$214.50	\$207.00	\$202.50	polished metal front + ceramics, polymer back, metal edge (20 grams)
Lux Glass TM	\$3,600	N/A	\$57.00	\$54.90	\$51.00	\$45.90	Gorilla glass (7 grams)
