CUSTOMER JOURNEY PLAYBOOK · LEGAL PERSONS / SMES

SME Onboarding

KYB Document Playbook

One complete company pack. Activity-specific extras. Fast when ownership is clear.

BEFORE

Opaque RFIs, unresolved UBOs, trading firms stuck in limbo.

AFTER

Knows the company pack; UBO resolved; trading evidence ready; live under fair limits.

Document ID	MAL-GA-ONB-SME-PLAYBOOK-v1.0
Perimeter	Global Account (US / Zenus) · UAE IBAN / Financing columns noted
Basis	SME KYB Matrix July 2026 · Zenus §6.4 · CRAM Entity Appendix B · GA B2B Scenario Pack
Audience	KYB ops · Compliance · Relationship / Product
Generated	7/17/2026, 6:56:04 AM

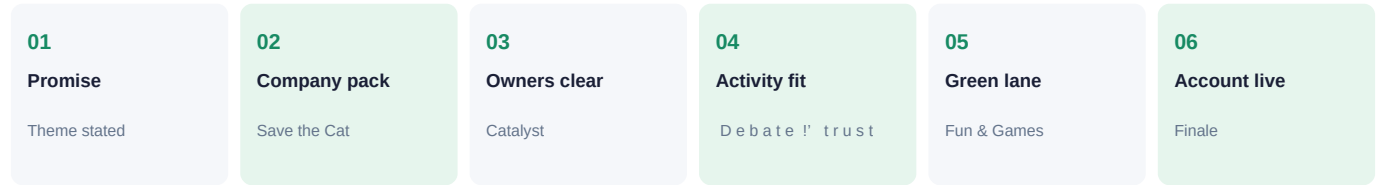

THEME · THE PROMISE

Transformation: from “another bank that doesn't get our business” to “we're onboarded with clear rules.” Archetype: Golden Fleece — staged road to activated business account. Core loop: legal form + activity ! personalised checkli go live. Establishment corridor sets heat; business type sets whether we onboard at all; UBO nationality is an overlay.

1. The journey — six beats to SME activation

Get to the checklist fast (no Laying Pipe). One mental model: company !' owners !' money !' activity.

HARD RULE (PRIORITY-1)

If beneficial ownership cannot be resolved to natural persons within the RFI window !' refuse. No

Engine decision spine (automatic)

- G0 — Establishment / corridor permitted vs Zenus restricted/prohibited
- G1 — Entity + UBO + director screening fail-closed
- G2 — Legal form + Zenus §6.4 activity gate (prohibited type = decline)
- G3 — CRAM score (activity + corridor + structure)
- G4 — Targeted KYB/EDD pull for surviving triggers only

2. Data-points that drive the pack

Data-point	Why it matters
Legal form (LLC, FZE, sole prop, partnership, JSC, branch, trust, NPO...)	Entity-type documents + legal-form score
Establishment country + registered address	Residence gate + local registry docs + corridor heat
Licence activities (exact wording)	Nature-of-business score + Zenus prohibited screen
UBOs "e 25 % (name , nationality , residence , %)	Ownership chart + individual ID/PoA + overlays
Directors / authorised signatories	IDs + resolution to operate the account
SoF / SoW (profits, capital, group funding)	12-month statements / financials / capital trail
Expected activity (volumes, corridors, counterparties)	TM baseline + trade/service extras
Substance (office, employees, website, VAT)	Free-zone / shell filter
Product (UAE IBAN / Global Account / Financing)	Which KYB matrix columns become mandatory

3. Universal KYB baseline — Global Account SME

Customer-facing. Collect in one shot for Green-lane speed.

Section	Documents
Identity & authority	Signed application · valid trade/commercial licence · incorporation or registry extract · latest MOA/AOA · registered-office proof · signatory ID · board/shareholder resolution if needed
Ownership	UBO declaration + ID per natural-person UBO · ownership chart to natural persons · shareholder register where MOA incomplete
Money & tax	12 months business bank statements · SoF evidence · UBO SoW when High/EDD · FATCA/CRS + W-8BEN-E + TIN/EIN/TRN · Zenus prohibited-category attestation
Activity	Contracts/invoices/website/VAT/business profile · expected volumes, corridors, top counterparties

**PASTEABLE OPENER**

To open a business Global Account we need company documents, proof of who owns and controls the company (down to real people), 12 months of business bank statements, and a clear description of what the company does and who you pay or receive from. We only ask for extras if your activity or ownership triggers them.

4. Extra documents by legal form

Legal form	Add to baseline
LLC / mainland	Manager appointment + ID; shareholder register if MOA incomplete; local agent agreement if required
Free zone (FZE / FZ-LLC)	FZ licence + incorporation; registry extract/share cert; establishment card or office lease/flexi-desk; FZ mandate/resolution
Sole proprietorship	Owner ID + residency; POA if non-owner operates account
Partnership / LLP	Partnership agreement + partner register; partner IDs; UBO behind corporate partners
Civil / professional	Professional licence + partners' agreement; partner IDs
Private / Public JSC	Board list + resolution; director IDs; listed !' annual report / disclosures
Foreign branch	Parent constitutional docs (attested) + good standing; branch licence; parent chart to UBO
Trust / nominee	Trust deed; IDs for all trust parties — usually High / not standard GA journey
NPO / charity	Registration + ministry authorisation + governance/donor records — acceptance gate; Zenus EDD only
Government / embassy	Establishing instrument + authorised-representative IDs — permitted with EDD

5. Activity gate — Zenus §6.4 & nature of business

Decline at G2 — do not collect a long pack

Gaming/casinos/POGO · arms/ammunition · cannabis · shell banks / unlicensed MSBs · third-party payment processors · prepaid access · independent ATMs · offshore banks / correspondent / payable-through / concentration accounts · liquor/convenience/restaurant (Zenus list) · real estate & construction on Zenus rails · trust & asset-management services · IOLTA/notaries/trustees/accountants as listed. Customer message: "This business type is not supported on the Global Account programme."

Permitted only with EDD + licence + compliance evidence

Regulated MSBs/EMIs/VASPs/PMIs, banks, broker-dealers, crypto exchanges, insurers, NPOs/charities, government/embassy — High floor, senior path. Nested/correspondent remains prohibited.

CORRIDOR STILL BITES

Low nature-of-business score does not cancel Egypt/Pakistan/UAE-hub corridor EDD. Establishment heat and activity heat stack; programme prohibitions always win.

6. Extra docs by business activity (customer-clear)

Activity	Extra documents	Watch / outcome
Goods trading / import-export / re-export	Sample invoices · contracts · B/L or AWB + customs samples · supplier/buyer list · dual-use/end-use if relevant	T B M L mismatch !' decline + S A R path
Services / consulting / commissions	Engagement letters with deliverables · substance evidence · counterparty registry · agency agreement + underlying txn for commissions	N o - s u b s t a n c e f e e s !' decline
Manufacturing	Premises evidence · payroll/headcount · supplier invoices matching licence · export docs if exporting	Ghost payroll / agent misuse
E-commerce / marketplace	Platform payouts · website/catalogue · plausible suppliers · VA extras if crypto	Circular supplier rings
DPMS / jewellery	DPMS licence if required · supplier KYB · inventory/shipment trail	High EDD; not always Zenus knock-out
Holding / IP / royalties	Group chart · dividend/capital resolutions · licence + pricing basis	Mispricing / round-trip
Regulated FI / VASP / MSB	Regulatory licence · AML programme · no nested/correspondent attestation	Permitted-with-EDD only
NPO / charity / CSR	Ministry registration · programme description · licensed-charity whitelist for counterparties	T F / c o n f l i c t - a d j a c e n t !' S T R

7. UBO / ownership overlays

Trigger	Extra ask	Posture
Any High / EDD / GA corridor majority	Full ownership chart + 12m statements + UBO SoW	Default for most GA SMEs
Complex layers / nominees	Layer-by-layer evidence; resolve nominees to natural persons	Unresolved! refuse
Restricted-country UBO (e.g. LB UBO of PK LLC)	UBO SoW + remittance trail + senior approval; block that country's corridors	High floor Rule 1
Foreign PEP UBO / director	Corroborated SoW + MLRO/senior approval; PEP-neutral customer wording	High
Related-party heavy flows	Intercompany agreements; auditor-confirmed group structure	Enhanced monitoring

Each natural-person UBO also needs individual baseline: passport/ID + proof of address in their country of residence (same retail PoA rules).

8. By establishment country

Established in	Default posture	Local flavour	Activity extras still apply
Pakistan	High / EDD	SECP + trade licence; UBO CNIC/passport + PK PoA	Trade: invoice+B/L+customs
Egypt	High / EDD	Commercial register + tax/VAT; EG address	TBML reconciliation for goods
Turkey	Med / EDD	Ticaret sicil + vergi; TR address	Dual-use/end-use if relevant
Bangladesh	Med / Std+	RJSC + trade licence	Garment: wage-file / agent licence
Indonesia	Med / Std+	NIB/OSS + AKTA	E-commerce plausibility; VA
Philippines	Med / Std+	SEC + BIR/mayor's	Commission linkage; gaming = decline
Saudi	Med / Std+	CR + licence	PEP screen; note Zenus RE/construction ban
Jordan	Med-High	Companies control docs	Charity whitelist + TF
UAE	Hub / EDD	Mainland or FZ pack + Ejari/establishment card	Re-export TBML; substance anti-shell

9. Worked examples

EGYPTIAN TRADING LLC — EGYPTIAN UBOS

Licence + commercial register + MOA + Cairo office proof + UBO IDs/PoA + ownership chart + 12m statements + W-8BEN-E/tax + sample invoices + B/L + customs + expected suppliers/countries. Lane: High/EDD amber!green if complete day 0.

UAE FZE — RE-EXPORT TRADING

FZ licence + incorporation + establishment card/lease + UBO Emirates ID/passport + Ejari + 12m statements + trade docs + substance (employees/utilities) + Zenus attestation. Decline if no substance / circular invoicing.

PAKISTANI IT LLC — GERMAN UBO IN GERMANY

Full PK KYB + German UBO passport + German PoA (<90d) + UBO SoW + PK 12m statements + client contracts showing real deliverables. High (PK corridor); German nationality is not a Low shortcut.

PH GAMING / POGO

Decline at G2. No document pack.

10. Fast / whitelisted SME cycles

Lane	Entry conditions	Target	Feeling
Green	Activity not prohibited · establishment permitted · screening clear · full baseline + 12m statements + activity evidence day 0 · no Rule-1 / Foreign PEP	< 48–72h	Momentum
Amber EDD	General trading / e-commerce / High corridor · same docs + trade/service extras · analyst reconciliation	Complete pack !' dec	Fair review
Red	Restricted UBO SoW · Foreign PEP · FI/VASP/NPO · incomplete UBO · thin substance · dual-use adjacency	Senior / MLRO	Honest stakes

Soft product controls after activation

- Counterparty screening before first material B2B
- Trade-doc reconciliation above thresholds
- Block restricted/prohibited corridors
- No nested / correspondent / payable-through features
- Lower velocity until behaviour matches profile

11. One-page activity !' docs matrix

Activity bucket	Heat	Zenus gate	Baseline	Extras	Fast?
Simple retail / education / medical / food mfg	Low–Med	Usually OK	Full \$3	Light evidence	Yes*
IT / professional services (non-prohibited)	Med–High	Watch wording	Full \$3	Contracts + deliverables	Yes*
Textile / garment mfg	Med	OK	Full \$3	Payroll + suppliers	Amber
General trading / import-export	High	OK + EDD	Full \$3	Invoice + B/L + customs	Amber
E-commerce	High	OK + EDD	Full \$3	Platform + suppliers	Amber
DPMS / jewellery	High	High EDD	Full \$3	DPMS trail	Amber/Red
Holding / IP	High	OK + EDD	Full \$3	Group + pricing	Amber/Red
Crypto / MSB / EMI	High	EDD only	\$3 + licence	AML programme	Red
NPO / charity	High	EDD only	\$3 + ministry	Donor/beneficiary	Red
Gaming / arms / TPPP / prepaid / shell MSB / RE & construction	Prohib.	Decline	—	—	No

* Corridor may still force EDD (e.g. EG/PK establishment).

12. Parallel to retail — same logic

Retail driver	SME equivalent
Residence country	Establishment country
Passport + PoA	Licence + registry + office proof
Payslips + statements	12m business statements + contracts/invoices
Nationality overlay	UBO nationality / SoW overlay
Corridor EDD	Same corridors (EG/PK High, etc.)
Green lane = complete retail pack	Green lane = complete KYB + UBO resolved + activity evidence

13. What not to do

- Do not onboard without natural-person UBOs

- Do not collect a 40-document dump for a prohibited activity — decline early
- Do not treat foreign UBO nationality as a Low shortcut on a High establishment corridor
- Do not skip 12-month statements on Global Account to “move faster”
- Do not tip off with “PEP” language — routine verification only

14. Sign-off

I confirm this SME Onboarding Document Playbook aligns with the Mal KYB matrix, Zenus §6.4 and Mal-CRAM-US-01, and is fit for operator use and customer-facing checklists.
